TO RECEIVE ZONING APPROVAL FOR NORMAL COMMERCIAL PROJECTS:

For commercial properties, the planning commission will take your request under consideration with the review of a site plan. What is a site plan for commercial properties? Unlike normal residential projects the County's application will NOT solely suffice for commercial projects and can best be answered on our website. Chapter 1283 of our ordinances covers site plan review, specifically commercial projects falls under 1283.04. When this site plan is developed all other ordinances also need to be taken into consideration. Example: Chapter 1272 Business District (B-1 or B-2), Chapter 1278 Teal Lake Overlay District (TL)1286.06, OFF STREET PARKING REQUIREMENTS and all other ordinances that apply to your property need to be considered.

Many applicants choose to hire a professional to help them through this process because this can be a bit overwhelming and there are so many different scenarios that can be played out with the use of Special Land Use Permits, Variances, simple request, etc. Much of that falls well beyond the common Do-it-Yourselfers abilities. But that choice is yours. Also most commercial zoning applications require a survey prepared by a licensed surveyor depicting the location of all lot lines, with survey markers erected on site.

1) Complete, sign and date the application forms.

For commercial permitting, the Marquette County application can NOT be solely used as "Site Plan" application for zoning approval for those making application pursuant to Section 1283.03.
